

Nokia Corporate Security is proud to announce that **John Robert, Senior Security Manager - South Asia, was adjudged as the Best Security Manager in the Indian Subcontinent** at the prestigious 3rd Security Today National Awards ceremony.

The award function was organized on 28th August 2008 at New Delhi, India by Security Today Magazine. Security Today is published by 1st Academy of Security Science Education & Training (1st Asset) and is India's largest circulated and the best read monthly magazine dedicated to the security industry.

The National Security Today Awards are recognized as the **most coveted and sought after awards** for the protection industry and security professionals in India. These awards were instituted in the year 2006 to identify and reward innovation, excellence and to encourage professionalism amongst the prime security professionals and end customers and service providers in Security industry.

The Best Security Manager award is for Security Professionals with an outstanding career in the field of Security and nominations are invited after careful evaluation by an expert and highly experienced panel. This award is presented to the Security Professional who has demonstrated consistent excellence in a Senior Security Management role, with the ability to inspire and lead a team of dedicated security professionals.

In the words of John Robert, "I would like to dedicate this award to each and every member of the Corporate Security team, whose hardwork, tenacity and selflessness has provided me with this platform to lead and showcase Nokia's best practices in front of the Indian Security industry. This award truly bears testament to our core Nokia values of *Achieving Together & Passion for Innovation*. Without our strong teamwork, solidarity and innovative security programs, this achievement would not have possible."
